INVITATION **“Development of Intermodal Transport in Hungary”**

Dear Madame or Sir,

Hungary has made a considerable progress with respect to intermodal transport in the last years:

- Different railways and intermodal operators are providing competitive services;
- The country is well connected to major European destinations with frequent shuttle trains proving the backbone of intermodal transport;
- Intermodal transport has been developing steadily in recent years.

Time to be proud! Time to be satisfied. Time to lean back? Or time for a further growth path?

These and other items should be discussed with relevant actors of the intermodal sector in Hungary; you are therefore kindly invited to

- discuss the recent achievements, status quo and future prospects of intermodal transport in Hungary,
- achieve a consent about the growth perspective and coordinate regulative, financial and operational measures that will be necessary to foster the increase of intermodal rail services,
- identify relevant actors and time horizons for the realisation of the intermodal strategy and
- summarise a “road map on intermodal transport” in Hungary.

Jointly with the COSMOS project partner GYSEV CARGO we kindly invite you to participate in the workshop on

16 October 2013, 9:30-16:00 (registration 9:30 / start of meeting 10:00)
in the Hotel Tulip Inn Millenium (Address: 1089 Budapest, Üllői út 94-98).
